

Remote Keypad

Activate or deactivate the alarm with the keypad or from your App.

16-buttton wireless keypads with backlighting for easy use at nighttime. Powered by lithium batteries, the keypads feature long battery life lasting four to six years. These easy-to-install, stylish keypads blend naturally with any home décor.

Key features

- 16-button backlit keypad for easy use at nighttime
- Consume power only when in operation
- Low battery detection
- Tamper protection
- Compact profile
- Communication: ZigBee

Area of use

The keypad is mounted in the entrance area – always present, easy to use. As an addition to app in case of low cellphone battery or misplaced phone.

If you have a Yale Doorman digital doorlock as a part of your security solution, you will not need the keypad.

Included in the safe4 eco-system.

Services

- Monitoring and Alarm Receiving Services from certified ARC.
- Push notification in app, Sabotage alarm.
- Manned security Services if offered by service provider.
