

Smoke Alarm

Smoke and temperature monitoring for optimal fire detection.

With this Smoke Alarm, you will never have to worry about fire or smoke in your home again.

While at home, the Smoke Alarm will warn you about smoke, using a loud sound. While away, you will be instantly notified through an internet connected gateway.

Moreover, the Smoke Alarm will report the status and temperature every two minutes via your smart home system. The wireless Smoke Alarm is battery powered and easily mounted to the ceiling with the included screws.

Key features

- Smoke sensor
- Temperature sensor
